Africa Unleashed Nairobi Kenya is located in an old mansion sitting majestically amidst swaying jacarandas and mango trees. A large expanse of manicured gardens lead you into the hostel. Our location is close enough to city centre (8 min drive to be precise) but far enough to be private. You get to live in one of the calm n Secure residential areas in Nairobi. We are in posh Lavington where the old colonial houses and their natural environment is still preserved. The hostel has clean, large rooms with plenty of windows to let in the sun and breeze.

We have 3 private balconies where residents can smoke, lounge around or have a tusker malt (the famous Kenyan beer). You can take a dip in our large swimming pool, order nyama choma, sit and read or sip a drink under the Bandas' along the poolside.www.crocodileracers.com

We have a restaurant where special menus are available for backpackers and the COOLEST PUB in the neighbourhood with 48' dstv and a pool room to play snooker. You can pitch your own tents in our garden campsite or you can hire the tents from us. We light bone fire in the pit outside the pub and this is the favourite place of travallers to enjoy their drink and meals in the evenings.
