Our meetings and events team will always be available to provide administrative, technical and practical support throughout your stay.

Our team is anxiously waiting for you to let us know what, when and how many, and we will take care of the rest.

ECO-FRIENDLY

At Capital Hill Lodge, we are dedicated and actively involved in conserving the environment. Capital Hill Lodge neighbors the menengai forest which surrounds menengai crater. This forest is home to many bird species and it surrounds the menengai crater. We have provided fencing

for part of the forest for the interest of conservation and security. we have also been involved in tree planting in the forest. In the interest of being environmental friendly, we have also invested heavily in solar energy, this significantly reduces fossil fuel energy use and greenhouse gas emissions.

We are proud to set the trend for other businesses in Nakuru to utilize eco- friendly energy sources.
