

Mtende House is built in the classic Arab/Swahili style. It is nestled in a beautiful and peaceful corner of the village. The house stands next to bush covered sand dunes and it is just a one minute walk to the beach.

This light and breezy house is cleverly designed over four floors. The first three floors are made up of ensuite bedrooms, two of which have balconies. The cool roof top has a bar, the dining area and barazas and hammocks, where you can relax and watch the birds and monkeys.www.crocodileracers.com

Prices are per night. The four price brackets are determined by a combination of the weather and the holiday season.
