

**Casa Papaya Lamu** Is A Large Spacious House With An Even Larger Garden Located In Shela, Lamu, Kenya

In the morning birds of every kind and color sing beautiful and funny songs.

The interior decoration is full of African colors, textiles and sculptures made from things found on the beach.

- The house hosts four double rooms.
- Two have twin beds, and two are matrimonial.
- All are self-contained, and have large windows.
- Altogether the house can accommodate 8 persons.
- The whole house is rented to a single group at a time.

There are plenty of open spaces on the two floors and the roof terrace, all with big sofas and pillows, to comfortably lie and relax, watching the sun setting behind the dunes, or gaze at the night sky filled with stars.

The long deserted beach is reached by either walking through the small village, or directly from a pleasant path starting from the garden door leading up to the open ocean. [www.crocodileracer.com](http://www.crocodileracer.com)

This house is a retreat and a refuge, ideal for groups of yoga and meditation or any other creative path that needs protection and peace. Or simply a special holiday, plunged in nature,

and immense spaces.
