

Elena House has one large swimming pool and a children's pool all surrounded by lush tropical gardens. Blessed by the coastal monsoons all year round, the Villa provides an ideal setting for a holiday in paradise. The Villa is well situated for fishing, and diving excursions, wildlife safaris and of course the history of Malindi town, a small fishing village visited by Vasco de Gama in 1498 while sailing the waters off the East African coast. All the beaches are surrounded by reefs and lagoons, where the clear waters of the Indian Ocean rarely dip below 27 degrees centigrade and team with an abundance of tropical fish and corals.
