

Dream Camp is located on the banks of the Talek River and is one of the most eco-friendly camps in Kenya. The camp uses solar power to generate both hot water and electricity whereas the waste water is used to water over 3000 trees.

Accommodation at Dream Camp

Dream Camp has 15 individual tents each with a private bathroom (toilet, wash basin and shower), chairs and a table on the deck for relaxation. All tents are doubles; therefore the camp can accommodate a maximum number of 30 guests.

Activities

- Game drives
- Hot air balloon safari
- Walking safaris www.crocodileracers.com
