

**Encounter Mara Safari Camp Maasai Mara** is located in the exclusive Mara Naboisho Conservancy and overlooking a stunning valley and salt lick frequented by wildlife, Encounter Mara provides a unique and authentic safari experience. Encounter Mara offers much sought after night game drives and walking safaris through the open plains, after which guests may enjoy open-air relaxation while continuing to view game passing the camp.

### Accommodation

Each of Encounter Mara's twelve spacious tents features their own private veranda with a view over the surrounding savannah. Tents are constructed out of canvas and natural materials and furnished with handmade furniture.

Tucked into the edge of the forest, our tents are side-facing, which allows for a larger veranda as well as a "bathroom with a view." With a generous spacing between tents, guests have an entirely private space for personal relaxation. Our tents boast simple and elegant décor, soaking in the beauty of the surrounding bush – pure luxury in the wild![www.crocodileracers.com](http://www.crocodileracers.com)

### Dining

Encounter Mara features international cuisine offered at a schedule most conducive to a day on safari. The camp also offers vegetarian options at every meal. Soft drinks, local beer, and house wines are included in the room rates.

Our staff members are the most important part of our organization and we are committed to their well being and development. We operate on principles of integrity and honesty, leading the way in sound business ethics and in benefiting surrounding communities.
