

Miti Mingi Guest House Nairobi Kenya is a safe and friendly bed & breakfast guest house in the beautiful garden. Located in Westlands, the serene guest house is amongst many trees thus the name "Miti Mingi" in Swahili. The Guest House provides an ideal setting for a comfortable stay with a maximum of privacy and service. It's ideal for any traveller who would like a "homestay" rather than a "hotel guest" experience in Nairobi. Miti Mingi Guest House is for those who wish to enjoy peace and tranquility in a green haven, and yet want to be close to dynamic Nairobi with its lively international art, music and entertainment scene.

Although ideal for business travellers– with wireless high speed Internet, large desks and office chairs – everyone, both tourist and business traveller will enjoy the friendly service and stunning garden full of Kenya's exotic flora and birds. Some thirty species of birds can be spotted sunning on a Frangipani tree or nesting in the Barcode Bamboo or Oleander bush. www.crocodil eracers.com

Miti Mingi aims to be an eco-friendly Guest House which is achieved by collecting rainwater, use of solar power, separating garbage and conscious use of water and electricity. Compost is made from biodegradable waste and gladly received by the plants and trees.

We serve a sumptuous and varied breakfast 'al fresco' – the average temperature of 22 degrees C allows for this almost year round. The fully equipped kitchen may be used by guests to cook other meals. Excellent restaurants are in close proximity.

Accomodation:

Miti Mingi is situated on the same plot as the owner's house. Because of the many trees and shrubs the guests' sense of privacy will prevail, whilst at the same time enjoying the idea of "being a resident" rather than a hotel guest. Guests can work in their rooms, on the couch in the living room or on the veranda, as wireless broadband internet is provided.

Our Guest House offers a choice of four en-suite bedrooms – three doubles and one single. Shade and Sun rooms can have either twin or double beds. Sky has a double bed. Rooms are equipped with excellent mattresses, satellite TV, adequate reading lights, large desks, office chairs, battery-charged back-up lights, mosquito nets and electronic safes. Bathrooms are fully tiled and have pressured and solar-heated showers with back-up booster. We have silent power backup.

Shared Facilities:

The Guest House has a comfortable lounge, a fully equipped kitchen and a dining area. The lounge has a small library and you are invited to read and exchange books. The kitchen can be used by all to prepare meals and drinks. We stock snacks and beverages for sale. Tea and instant coffee are free throughout the day, and so is wireless Internet.
