

Nairobi Tented Camp is an authentic tented camp inside the Nairobi National Park. It's the first and only tented camp accommodation of any sort to be allowed in this unique wildlife safari destination home to Lions, Leopards, Rhinos and a diversity of the savannah wildlife. It is believed nowhere else quite like it in the world. Over 4000 Zebras, 1000 wildebeests & 14 species of antelope all call the Nairobi National Park their home at some point throughout the year.

An estimated population of nearly 40 lions, healthy leopard numbers including a resident one not far from the camp and spotted hyena as well as the occasional cheetah can be seen here.

The camp consists of eight guest tents each with accommodation for two people. Each tent has its own toilet and shower, so you can enjoy the luxury of en-suite living 'safaris style', with hot water heated over a log fire and brought to your shower when you're ready. www.crocodileracers.com
