

Naishi Watamu Beach House Kenya Coast itself has 3 luxurious bedrooms. Each one has an en-suite bathroom, a wonderfully oversized double bed and an exceptional view of the sea. Air conditioning is available in all bedrooms and generator backup will turn on when power cuts happen. The infinity plunge pool is the heart of the home and the surrounding veranda areas are perfect for relaxing, sunbathing and sipping a G and T as the waves break on the shore ahead of you. For a more adventurous experience, the roof top terrace is a wonderful space for sleeping under the stars if the weather permits (December to March).

Naishi is conveniently located far enough from Watamu village to be secluded, but close enough to find what you need. Getting to know the area will not take you long. Watamu is a small place where you can find most things, and Malindi is a little bigger. We prefer to forget the outside world exists and relax completely in the stunning surroundings of Naishi. www.crocodileracers.com
